International Journal of Production Economics, 27 (1992) 297–298
Elsevier

Contents Volume 27

Vol. 27, No. 1 (April 1992)

A clustering analysis of forecasting methods in a multi-objective inventory system
A. Mehrez (Beer Sheva, Israel) and M.Y. Hu (Kent, OH, USA) 1
Evaluating the introduction of JIT
P.L. Primrose (Manchester, UK) 9
Determination of nested reorder intervals in a distribution network
P. Iyogun (Waterloo, Ont., Canada) 23
A compact heuristic for common cycle lot-size scheduling in multi-stage, multi-product production processes
M.K. El-Najdawi (Villanova, PA, USA) 29
Quality selection of a two-dimensional process level under single acceptance sampling by variables
O. Carlsson (Umea, Sweden) 43
Continuous quality improvement: Why some organisations lack commitment
B.G. Dale and K. Lightburn (Manchester, UK) 57
Quality costing for total quality management
L.J. Porter and P. Rayner (Bradford, UK) 69
Innovative output and firm size in the pharmaceutical industry
S.B. Graves and N.S. Langowitz (Chestnut Hill, MA, USA) 83
Book Reviews 91
Diary of Events 93

Vol. 27, No. 2 (May 1992)

Replacement analysis for components of large scale production systems
J.T. Luxhoj (Piscataway, NJ, USA) 97
Variations of order-level inventory models for deteriorating items
A. Goswami and K.S. Chaudhuri (Calcutta, India) 111
Effects of cycle time on integrated procurement-production systems - Sensitivity analysis
S.K. Goyal (Montreal, Que., Canada), S.G. Deshmukh (Delhi, India) and A. Subash Babu (Bombay, India) 119
The profit-oriented interval cutting problem: model and stability analysis
K. Richter (Chemnitz, Germany) 127
Comment on the "analytic Delphi method"
K.J. McCarthy (St. Louis, MO, USA) 135
Scheduling in *n*-job, *m*-stage flowshop with parallel processors to minimize makespan
C. Rajendran and D. Chaudhuri (Madras, India) 137
The manufacture of soda ash in the Arabian Gulf
K.M. Wagialla, I.S. Al-Mutaz and M.E. El-Dahshan (Riyadh, Saudi Arabia) 145
Some results for inventory models having inventory level dependent demand rate
M. Goh (Pooraka, Australia) 155
The rate of return regulated version of Farrell efficiency
R. Färe (Carbondale, IL, USA) and J. Logan (Salt Lake City, UT, USA) 161
An organizational approach to product quality via statistical experiment design
T.N. Goh (Kent Ridge, Singapore) 167
Jus-In-Time purchasing: Single of multiple sourcing?
J.-D. Hong (Orangeburg, SC, USA) and J.C. Hayya (University Park, PA, USA) 175
Book Review 183
Diary of Events 185

Vol. 27, No. 3 (October 1992)

Editorial Statement by Robert W. Grubbström i
Editorial Statement by Uday S. Karmarkar iii

Analyzing divergent logistic networks with local (R,S) inventory control
M.C. van der Heijden (Eindhoven, The Netherlands) 187
A strategic planning model for oilfield service and supply companies
R.M. Bowker (Dallas, USA), J.S. Dyer, J.A. Fitzsimmons (Austin, USA) and K.K. Sinha (Minneapolis, USA) 221
A systematic procedure for the selection of bulk material handling equipment
J. Velury and W.J. Kennedy (Clemson, USA) 233
A simple case of preventive maintenance decision-making with limited historical data
E.A. Silver (Calgary, Canada) and C.-N. Fiechter (Lausanne, Switzerland) 241
An heuristic approach for finite time maintenance policy
V. Jayabalan and D. Chaudhuri (Madras, India) 251
Options in advanced energy-related production processes
L.J.O. Lint (Rotterdam, The Netherlands) 257

Forum
A dynamic approach to operations management: An alternative to static optimization
R. Jaikumar and R.E. Bohn (San Diego, USA) 265

Technical Note
"On-the-fly" line balancing with very little WIP
J.O. McClain, L.J. Thomas and C. Sox (New York, USA) 283
